

Hurricanes, Trees & Forests:

A Selected Bibliography

compiled by Dr. Kim D. Coder, University of Georgia 8/99

Hurricanes and trees do not mix well. This publication cites recent publications and journal articles which deal with various aspects of hurricane impacts on trees and forests. This not a comprehensive review but selected to provide a broad view of work and workers in this area. This selected bibliography is provided for educational purposes.

Allen, BP. Pauley, EF. & Sharitz, RR. 1997. Hurricane impacts on liana populations in an old, growth southeastern bottom-land forest. *Journal of the Torrey Botanical Society*. 124:34-42.

Andresen, JW. Bartlett, T. & Burbank, LL. 1993. Protect your urban forest from wind damage: Operation Tornado ReLeaf. *Arboricultural Journal*. 17:277-286.

Asner, GP. & Goldstein, G. 1997. Correlating stem biomechanical properties of Hawaiian canopy trees with hurricane wind damage. *Biotropica*. 29:145-150.

Basnet, K. 1993. Recovery of a tropical rain forest after hurricane damage. *Vegetatio*. 109:1-4.

Batista, WB. Platt, WJ. & Macchiavelli, RE. 1998. Demography of a shade, tolerant tree (*Fagus grandifolia*) in a hurricane-disturbed forest. *Ecology*. 79:38-53.

Bellingham, PJ. Kapos, V. Varty, N. Healey, JR. Tanner, EVJ. Kelly, DL. Dalling, JW. Burns, LS. Lee, D. & Sidrak, G. 1992. Hurricanes need not cause high mortality: the effects of Hurricane Gilbert on forests in Jamaica. *Journal of Tropical Ecology*. 8:217-223.

Bellingham, PJ. Tanner, EVJ. & Healy, JR. 1995. Damage and responsiveness of Jamaican montane tree species after disturbance by a hurricane. *Ecology*. 76:2562-2580.

Bellingham, PJ. 1991. Landforms influence patterns of hurricane damage: evidence from Jamaican montane forests. *Biotropica*. 23:427-433.
